# STONE<sup>®</sup> PAPER

## What is Stone Paper?

Stone Paper is an innovative new alternative to pulp and pure synthetic paper, made using 80-85% recycled mineral content CaCO<sub>3</sub>. Not a single tree or drop of water are ever used to manufacture Stone Paper materials, nor any of the harmful acids, dyes, and bleaches otherwise required to whiten and treat pulp-based paper. This process avoids the air and water pollution associated with pulp paper production, while also using 85% less energy that results in a 67% smaller front-end carbon footprint.

We use 12pt cover stock and 5.5pt text stock to produce our products.

## Why use Stone Paper?

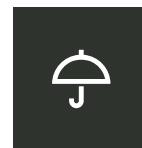

### WATER FREE

No use of water is needed in the making of our Stone Paper<sup>®</sup>.

### TREE FREE

Absolutely zero trees are utilized in our manufacturing process.

### WATERPROOF

Our products are perfect for use in the elements.

### TEAR RESISTANT

Extremely durable and completely re-usable.

### CHEMICAL FREE

No harmful chemicals or dyes are used in manufacturing.

### LOW CARBON

67% lower carbon footprint than traditional paper making process.
