A note from Starline regarding our 2021 brochure pricing and U.S. government tariffs

The pricing reflected in this brochure is intended as a REFERENCE TOOL ONLY. Pricing is subject to change at any time and certain items may reflect an additional surcharge due to government tariffs and circumstances beyond our control. Please always refer to [www.starline.com](http://www.starline.com) to confirm current pricing, product info and PROP 65 information.

**Orders Shipping to the USA:** Because of the uncertainty of current/proposed government tariffs, we have chosen not to build any additional charges into our 2021 item pricing. If it becomes necessary, we will add-on any additional charges as a "tariff surcharge." This will allow us to address changes real-time on our website should the status of the tariffs change or become obsolete during our selling season. Our goal remains to provide you access to the most up-to-date and accurate information possible. In addition to our website, our dedicated sales and customer service teams are ready to assist you with any questions that you may have. Distributors, please contact [customerservice@starline.com](mailto:customerservice@starline.com) for assistance.

# uni-ball®

UNIQUELY *Inspired*

For over a century, uni-ball has been a global leader in providing innovative writing and art instruments with superior functionality and affordability. Inspiring creativity and connection, uni-ball products deliver unique solutions that enrich the lives of its customers.

Each new solution uni-ball develops pushes the limits of writing technology and elevates industry standards. By innovating and refining unique product lines, these developments continuously transform today's writing market.

Featured in nearly all uni-ball pens and most prominently the SIGNO™ series, Super Ink™ is an archival-quality pigment ink that offers extraordinary levels of water, chemical, and light resistance. In comparison to standard washable inks, uni-ball's acid-free Super Ink™ stands the test of time by embedding itself into the fibers of paper – making the ink permanent. Due to larger particles, Super Ink's™ unique pigmentation creates more legible writing that lasts a lifetime. Perfect for writing checks or signing important documents, uni-ball's patented Super Ink™ is ideal for anything that needs to stay put.

Featuring the SIGNO™ series, gel pens dispense a hybrid pigment ink that doesn't smear, fade, or wash away.
